

EPOXY-COATING - EPIROC V

DESCRIPTION

Epoxy paint without solvents, consisting of 4 components:

- Resin, type Bisphenol - A/F
- Hardener from the polyamine adducts group
- With pigment: coloured, without pigment: transparent
- Fillers

GENERAL MECHANICAL FEATURES

Density	1kg/dm ³
Colours	RAL colours
Compressive strength	At least 63 MPa (= N/mm ²) (DIN 53454)

APPLICATION

Installation temperature: min. 15 °C

Standard thickness: 300 micron and up
